# Ngorongoro Crater

Your first sight of Ngorongoro Crater is likely not one you'll easily forget. As seen from the crater rim, this natural bowl, both vast and intimate, is one of Africa's most beautiful natural features, stretching 19 green kilometers (12 miles) from one side to the other. Down in the crater itself, you'll explore an astonishingly rich, self-contained ecosystem that is protected by high crater walls. Here, lions and hyenas hunt wildebeest and Grant's gazelle within sight of elephants and black rhinos. Your day spent here will reveal a surprising variety of habitats, from the Lereal Forest and salty Lake Magadi to the plains that rise and fall gently all across the valley floor.

Your safari in Tanzania will come to an end, bringing to a close your time in this remarkable country. We're sure that you have had the most wonderful time.

## Activity Day 4

### Full game drive

→ On this morning's guided game drive, we'll take you down into **Ngorongoro Crater**; the drive down is one of the most thrilling possible approaches for a day of wildlife viewing. You'll be down in the crater for most of the day looking for lions, hyenas, black rhinos and more.

### Meal Plan – Day 4

→ Breakfast & Lunch  
→ Drinking water
